### Technical experience

---

#### Information Technology Institute (ITI) *Front-End Web Developer ( 4/July/2021--12/September/2021 )*

In my role, I primarily work with the front-end team, using React.js as our main framework. Occasionally, we also interact with the back-end team, which primarily works with Node.js. Throughout my journey with the team, I have gained proficiency in using Git and GitHub for version control and collaboration. Additionally, I have familiarized myself with Postman, which we use for API testing and development.
